PARIS 2024

media **impact**—

THE WORLD IS A GUEST IN PARIS!

Sustainability & Inclusion

From July 26 to August 11, 2024, the XXXIII Olympic Games will be held in the French capital. Paris 2024 aims to host the most sustainable Games ever. Its three pillars are sport at the heart of society, a more inclusive society and environmental excellence.

Crucially, Paris 2024 will be the first Games to be fully compliant with the Paris Climate Agreement, leaving a positive legacy locally and internationally, as well as a positive impact on sport.

In addition to competition venues, 100 million euros will be invested in local sports facilities. A special focus will be placed on improving these facilities to make them fully accessible. Finally, an important and invaluable impact of hosting the Games will be the change in mentality regarding people with a disability, not only within the sports community, but throughout French society."

ROAD TO PARIS

TO THE 2024 SUMMER OLYMPIC GAMES

The anticipation for a lasting event in the heart of Europe is great - with Road to Paris we reach all fans early.

We explain the 33rd Olympic Games in Paris and present the various sports and, above all, our German athletes and the international competition in a cross-media series. For example, we could travel directly to the various athletes and their clubs or visit them at home in a kind of "home story" to get to know the athlete away from the sport.

Additional highlight events such as "BILD 100 Sport - Olympia" or the "SPORT BILD Award" can be used to spark interest in the direction of the Olympics at an early stage.
