# our environment, our responsibility

## „we empower a greener future“

### Emissions by scopes

Our scope 2 and scope 3 emissions fell by **7.6%** overall

In **Q1 2024** our Science-Based Target will be submitted to the SBTi.

**CO2-emissions**  
**-7,2%**

Our total emissions decreased by 7.2% in 2023

By 2045, we will reduce our emissions by

**90%**

### important step

Starting in fiscal year 2024, we will offset all remaining non-reducible emissions annually.

# programmatically 2026

## more about you

your goals, our mission

# your goals, our mission

safety first

**brand safety &  
brand suitability**

we do it all

# tailored, brand-suitable solutions designed for you

The name says it all: brand suitability measures must fit each brand. That's why we offer custom, **brand-suitable concepts** for every brand and every need.

## Broad portfolio<sup>1</sup>

**& MANY MORE**

## Beyond news and politics

For example, on our **“Second Home”** of the BILD Sports Channel.

## Personalized targeting

Reach your audience safely with custom brand-safe **keyword targeting** and **individual keyword lists**.

## Close client support

Benefit from tailored consulting to ensure the **best possible customer service**.

<sup>1</sup> Source: AGOF daily digital facts; base: 16+ years, single month December 2022; media combination MII-Portfolio 2024.

# because we take **responsibility**

## Legal safety

- ✓ With our quality journalism, we ensure a safe advertising environment by complying with and upholding German legislation.
- ✓ The following types of content are therefore excluded, among others: Calls for violence, incitement of hatred, terrorism, illegal gambling, and more.<sup>1</sup>

## Risk management

- ✓ Our editorial teams flag particularly critical videos to ensure they remain automatically ad-free.
- ✓ Using the OVK Brand Safety Classifier, we categorize our content according to the recognized IAB taxonomy<sup>2</sup> and mark “sensitive” content.
- 🏷️ 2€ surcharge on your volume booking.

## Brand suitability

- ✓ We offer individual brand suitability measures that go beyond legal safety — for example, through secure audience targeting using custom brand-suitable contextual targeting and individual keyword lists.
- 🏷️ 4€ surcharge on your volume booking.

<sup>1</sup>Whitepaper “Brand Safety”, OWM/BVDW, September 2024

<sup>2</sup>The IAB content taxonomy helps publishers categorize content (e.g., “Sports” or “Wellness”) to organize it and minimize risks related to sensitive data.

## Your ads in matching articles

Portfolio-wide coverage across all thematically relevant articles.<sup>1</sup>

**Formats:** freely selectable

**Aufschlag: 2€**

<sup>1</sup>through kontextuelles<sup>1</sup>through contextual targeting.  
<sup>2</sup>via interest targeting  
\*Industry campaign averages from 2020-2022 Q1Targeting

## Your ads for all “heavy users”

Portfolio-wide delivery for all (heavy) users<sup>2</sup> who read multiple articles on the same topic – regardless of the specific content.

# data-driven personas for smarter targeting

- Each **Persona**<sup>1</sup> we create combines **sociodemographic characteristics** such as age, gender, and household income with **behavioral traits**, **attitudes**, and **interests**.
- Personas are modeled and profiled using state-of-the-art machine learning algorithms **based on our first-party data**.

**Formate:** freely selectable

**Delivery:** ROP

**Brutto TKP:** 4€ surcharge on your volume booking

<sup>1</sup> A persona represents the ideal typical member of a target group.

# engagement-targeting

The goal is to reach only those users who have shown **increased interest** in products from a specific category.

Target only the **relevant users**, those who have proactively interacted with a display or video ad.

<b>26 PRODUCT CATEGORIES</b>	AUTOMOTIVE	OFFICE	REAL ESTATE
	INSURANCE	LOGISTICS	PHARMA
	COMMODITIES	INDUSTRY	TECHNOLOGY
	EDUCATION	GASTRONOMY	TRAVEL
	EROTIC	HANDCRAFT	SERVICES

	LEISURE ACTIVITIES	CONSTRUCTION	
	MEDIA & ENTERTAINING	INVESTMENT & FINANCE	
	CLOTHING&ACCESSOIRES	ENERGY PROVIDER	
	NPO/ADMINISTRATIVES		

# supply path optimization (SPO)

## Single SSP approach

there is a 1 : 1 relationship between SSP and DSP

Due to **bid throttling** and possibly non-existent cookie matching, the SSP does not send every possible ad impression as a bid request to the DSP. This means that some **ad impressions** are not available to the DSP because they have been "filtered".

## Single SSP approach

there is an n : 1 relationship between SSP(s) and DSP

All possible ad impressions are available to all SSPs. As the DSP is requested by several SSPs, the probability that the ad impression will be made available to the DSP is significantly higher.

# what are the **advantages?**

## **WE HAVE TESTED AND FOUND OUT THE FOLLOWING:**

- The bid requests sent vary, sometimes up to 64% (bid throttling)
- The bid rate is different.
- Relevant sales were generated in each SSP and the overall reach across all deals was increased.
- The clearing price was almost the same for all deals

## **WE WERE ABLE TO IDENTIFY THE FOLLOWING ADVANTAGES:**

- Access to more unique users
- Access to more ad impressions
- More working media (fewer tech fees)
- All other advantages of the Private Auction

## **HOW CAN WE SUPPORT YOU?**

- Multi-size deals to reduce effort
- A range of seven SSPs available for deals (Xandr, GAM, Pubmatic, Magnite, Adform, Yieldlab, Amazon)
- A recommendation for the top 3 SSP-DSP combinations

# all eyes on you

## **awareness & consideration**

visibility, relevance, smart decisions

# premium formats in the private auction

## DOUBLE DYNAMIC SITEBAR

Thanks to its dynamic adjustment to screen size, the sidebar is always fully visible and perfectly optimized for different display dimensions.

## DYNAMIC FIREPLACE

The Dynamic Fireplace offers generous ad space with sticky sidebars, ensuring strong visibility and lasting impact for your campaign.

# big stage

## SURPRISING AND EXTENSIVE!

With the Big Stage, you present your video on the homepage in the entire portfolio - directly in the visible area!

Initially the content is pushed to the bottom, your video starts automatically and after 8 seconds the content is pushed back to the top and reminder advertising material stays.

You can find the technical specifications and ad format dimensions at: <https://www.mediaimpact.de/specs/>  
FCI/global, not bookable in-app (a medium rectangle ad is used as fallback in the app)  
Delivery is exclusively via Wi-Fi  
The ad is displayed only on the homepage
